

BAZAR-DÉ

Game designer: Christophe COAT

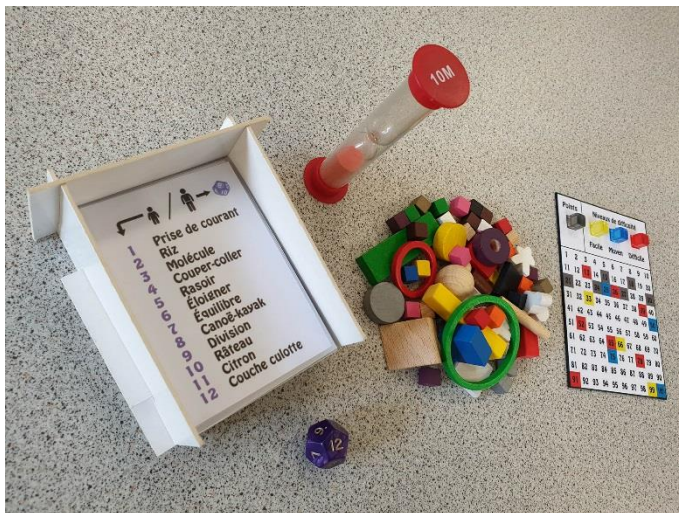

From 2 to 5 players (or more)

From 7 years old

10 minutes long

"Bazar-dé" is a cooperative party game. There are no rounds, because everybody plays at the same time! Pick a card and throw the dice to determine a word that you must keep secret... Seize the elements of your choice in the stock... Then make your teammates guess your word, thanks to the putting together or to the animation of your elements, without speaking or miming! If they find your word, the team gets 1 point. If they don't, it's a waste of time... which is not good news, because the team must guess 15 words within 10 minutes to win the game!

Key points of the game:

- A cooperative and frantic party-game, without rounds, where the team can play at the same time.
- It is possible to combine 2 sets of the game, to increase the number of players to 10, the game then lasting 20 minutes.
- There are possible game variations, and several levels of difficulties.
